PRECISION MATCH

AXMINSTER TILE

PRECISION MATCH

At Brintons, we own and operate our own manufacturing facilities in India, Portugal, and Poland. This unique structure allows us to maintain complete control over every stage of production — from ensuring consistency in yarn spinning and dyeing, to the precision weaving of our High Definition Axminster looms, and even to the use of recycled packaging that protects our carpets during dispatch.

Our Portuguese facility extends this commitment to quality and sustainability with an in-house tile production line, making Brintons one of the few Axminster carpet tile manufacturers in the world to manage every process under one roof and capable of ensuring a precise match.

Wool Rich Carpets

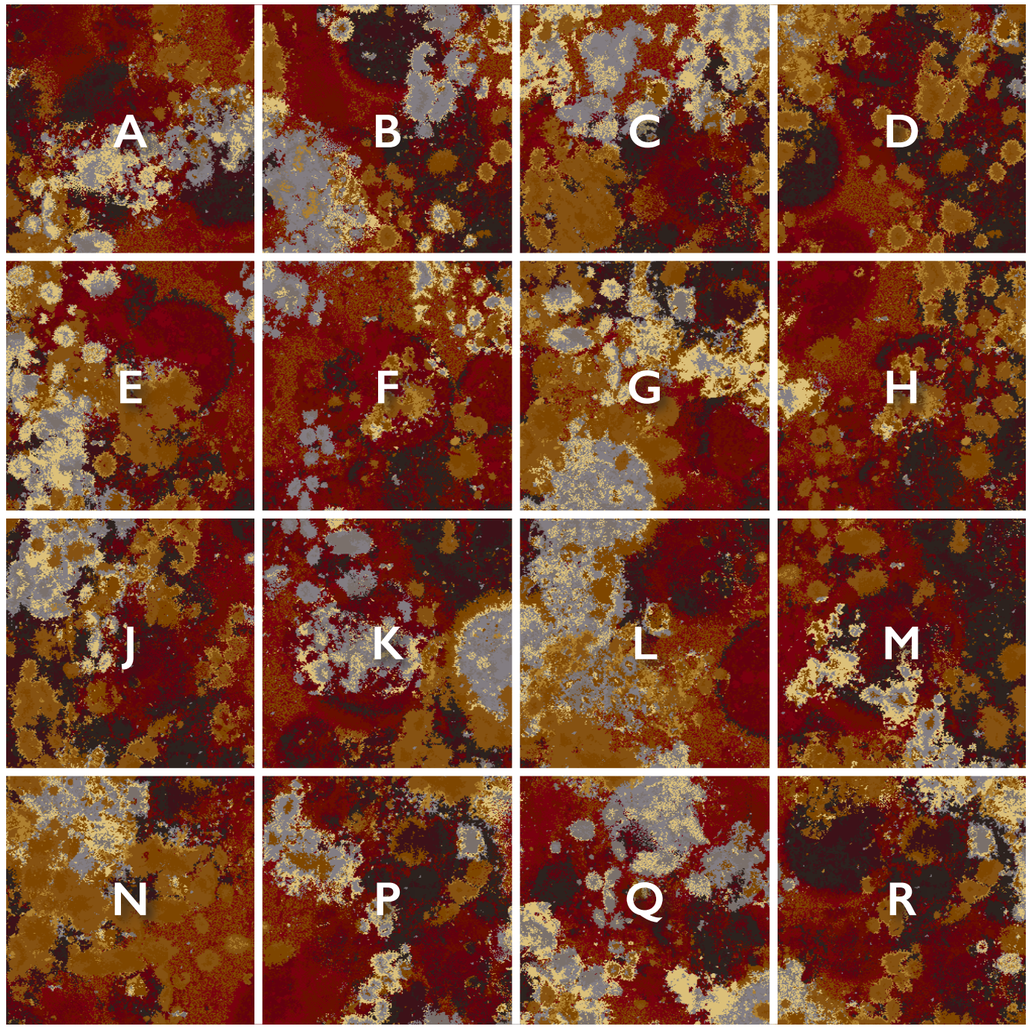

Brintons Axminster tiles are woven with 80% wool which gives the product superior benefits over synthetic tufted alternatives and is perfectly suited for casino environments.

- Keeps You Comfortable - Wool helps regulate temperature and allows air to flow, keeping indoor spaces regulated.
- Reduces Noise - Wool absorbs sound, making rooms quieter.
- Naturally Fire-Resistant - Wool burns slowly, puts itself out, and doesn't release harmful fumes like some synthetic materials.
- Stays Cleaner Longer - Its natural oils and texture help keep out dirt and dust, so it looks better over time.

Refined. Responsible. Remarkable.

By removing bitumen from our tile backing, we've created a more sustainable product that meets the rigorous Green Label Plus standards. This certification highlights our woven Axminster tiles as among the lowest-emitting flooring options available — delivering cleaner indoor air quality and helping designers meet green building goals with confidence.

Market-Leading Design Capabilities

Brintons Axminster tiles support complex multi-tile design repeats delivering broadloom-like aesthetics with modular convenience. Combine the technical accuracy of our in-house backing line with our industry leading High Definition Axminster (HDAX) looms and the design possibilities are endless.

- Define zones, paths, and layouts through tile placement.
- Integrate branding through custom colors, patterns, or even logos.
- Reduce visual grid lines with textures and staggered match points.
- Ability to offer large repeats "broadloom in a box."

MODULAR FLEXIBILITY

Engineered for Versatility

Brintons Axminster carpet tiles combine the luxurious heritage of woven Axminster broadloom with the modular flexibility demanded by today's commercial interiors. Ideal for hospitality, gaming, public spaces, and more, our tiles offer unmatched design sophistication without compromising on practicality.

Tile Size:
36" x 36" (91.4cm x 91.4cm)

Backing Options:

- Comfort Back - Felt backing with ≥80% recycled content.
- Hardback - Lightweight polyester for direct-stick installations.

Weave Densities:
From 8 to 12 rows per inch.

TAILORED FOR PERFORMANCE

Cover Image: Coushatta Casino Resort

Benefits of Brintons Tiles:

- Lightweight construction simplifies handling and reduces fatigue.
- Precision-cut tiles enhance fit and finish.
- Improved sustainability with minimal waste and recyclable materials.
- Individual tile replacement = lower lifecycle cost.
- Easy underfloor access = ideal for raised access flooring.
- High durability under heavy foot traffic.

Built for Commercial Demands

- Durability: Designed for high-traffic commercial and hospitality settings.
- Acoustic Performance: Tiles offer excellent sound absorption, enhancing comfort and ambiance.
- Sustainability: Comfort backing felt with recycled content; bitumen-free reduces environmental impact.
- Certification: Both tile backing options offer low VOC content (CRI Green Label Plus program).

TECHNICAL SPECIFICATIONS
